

WHY ORANGE HOSPICE?

We walk **with** our patients and families.

When it comes to end-of-life care, we believe the best care is patient-directed. We provide our patients with resources and support to determine their own care and treatment needs, **then meet them where they are with a comprehensive plan** that addresses all of their needs with respect to their values.

We walk **with** our community.

We believe in the immeasurable value of grief support to help families move forward. That's why **we donate 10% of our profits to community bereavement support services** for children and adults.

We walk **with** our staff.

Our **experienced and passionate staff** is our family, and they often become a part of yours. When we care for our team members through education, support, and training, they can take better care of you.
